

# TIMBER FENCING

Pride Fencescapes

**TIMBER FENCING  
CUSTOMER INFORMATION**

---

Timber butted fence @ 1.8m

**Timber butted is the most simple and budget friendly fencing we offer.**

**Unless stated otherwise we use CCA treated 75mm x 100mm hardwood posts to build our timber fences. The rails, palings (and capping if applicable) are CCA treated pine.**

**Good neighbour fencing is a popular style in new estates, the fence looks the same on both sides and there is a small gap between the palings. Available with or without a cap.**

Timber Good  
Neighbour fence  
@ 1.8m

**TAKING PRIDE IN OUR  
WORK IS THE CORE VALUE  
OF OUR BUSINESS**

**Lapped and capped fencing is a timeless style and offers the most privacy. One neighbour has the posts and rails facing them and the other has the palings.**

Timber lapped  
and  
capped fence @ 1.8m

**Some timber fences have sleepers built in beneath - this may be through choice to achieve a higher overall fence or necessity to retain a small amount of land. We use CCA treated pine 50mm sleepers and longer posts to achieve this.**

Timber raked butted fence with integral sleepers

Timber butted fence with integral sleepers
